- 1. Develop and maintain local capability for conducting screening examinations required under the EPSDT program.
- 2. Increase program efficiency and effectiveness by assuring that needed services are provided timely and efficiently.

## 5.0 SCOPE OF SERVICES.

The DPH shall provide the following services in accordance with the defined performance expectations as set forth below.

1. Determine if local agencies requesting to be screening centers meet the recommended standards of medical practice established by the program. Monitor the quality of care provided by existing Child Health Screening Center providers through on-site evaluations and quality assurance activities. Agencies will be reported to DHS that no longer meet the qualifications to be screening centers. It is estimated that this activity will require approximately 30 percent of a full-time position.
2. Provide consultation and technical assistance in communities in assessing local needs for EPSDT services. Dental access will be assessed including consultation and program development with the Iowa Dental Association and its ten (10) dental districts. In areas where barriers to dental access for EPSDT services are identified, strategies for increasing access will be identified and community based strategies will be recommended. It is estimated that this activity will require approximately 150 percent of a full-time position.
3. Implement, provide consultation, technical assistance and training regarding outreach, Medicaid information, care coordination and/or screening services for Medicaid eligible infants, children and youth to local providers. Participate in evaluation of effectiveness of the EPSDT outreach and care coordination system. Coordinate distribution of Medicaid recipient information necessary for implementation of Medicaid information and care coordination services. It is estimated that this activity will require approximately 154 percent of a full-time position.
4. Provide consultation to schools investigating participation in EPSDT activities. It is estimated that this activity will require approximately a 30 percent full-time position.
5. Continue to provide technical assistance to Child Health Screening Centers conducting cost analyses to determine cost of providing services in order to promote more cost efficient services. It is estimated that this activity will require approximately 10 percent of a full-time position.
6. Provide consultation and technical assistance to communities in assessing local needs for Administrative Medicaid Claiming. Provide instruction and technical assistance in claims review process. It is estimated that this activity will require approximately 80 percent of a full-time position.
7. Coordinate meetings with the Department of Human Services and Prevention for Disability Policy Council and other health care providers to facilitate coordinated efforts to maintain a minimum screening participation rate of 80 percent of Medicaid eligible children. It is estimated that this activity will require approximately a 3 percent full-time position.
8. Provide technical assistance in identifying baseline immunization rates for Medicaid eligible children and recommend strategies for implementing monitoring systems. It is estimated that this activity will require approximately 10 percent of a full-time position.

9. Assist the editor of the EPSDT Care for Kids newsletter in identifying authors for newsletter articles. It is estimated that this activity will require approximately 3 percent of a full time position.
10. Participate in claims review process. It is estimated that this activity will require 5% of a full time position.

The DHS agrees:

1. To reimburse EPSDT screening centers for the full cost of providing screening, outreach and care coordination.
2. To provide to agencies providing EPSDT outreach and care coordination services a monthly list of names, addresses, and phone number of Medicaid clients so the local agency staff can explain the benefits of preventive health services available to meet the federal informing requirement of the Medicaid Program.
3. To provide a vendor number to screening centers upon a notification of their certification from the Department of Public Health and to terminate vendor numbers upon notification that a center is no longer eligible to provide services.
4. IDPH expenditures will be eligible for federal match through the Medicaid Program consistent with HCFA rules.
